ACKNOWLEDGEMENT

Presentation inspiration and motivation have always played a key role in the success of any venture.

I express my sincere thanks to **Dr. APS Bhaudaria, Dean, PSIT College of Higher Education, Kanpur.**

I pay my deep sense of gratitude to **Ms. Pragati Upadhyay (HOD)** of BCA Department, **PSIT College of Higher Education** to encourage me to the highest peak and to provide me the opportunity to prepare the project. I am immensely obliged to **my friends** for their elevating inspiration, encouraging guidance and kind supervision in the completion of my project.

I feel to acknowledge my indebtedness and deep sense of gratitude to my guide **Mr. Nitin Dwivedi** whose valuable guidance and kind supervision given to me throughout the course which shaped the present work as its show.

Last, but not the least, **my parents** are also an important inspiration for me. So with due regards, I express my gratitude to them.

ABSTRACT

The purpose of Meal Station is to automate the existing manual system by the help of computerized equipment's and full-fledged computer software, fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same. The required software and hardware are easily available and easy to work with.

Meal Station, as described above, can lead to error free, secure, reliable and fast management system. It can assist the user to concentrate on their other activities rather to concentrate on the record keeping. Thus it will help organization in better utilization of resources. The organization can maintain computerized records without redundant entries. That means that one need not be distracted by information that is not relevant, while being able to reach the information.

The aim is to automate its existing manual system by the help of computerized equipment's and full-fledged computer software, fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same. Basically the project describes how to manage for good performance and better services for the clients.

INDEX

➤ Chapter-I:	
• Introduction	1
• Existing System	2
• Problems in Existing System	3
• Proposed System	4
• Objective of the Project	5
➤ Chapter-II:	
• Modules & Description of the Modules	6
• System Requirements	8
• Technology used in project	9
➤ Chapter-III:	
• Feasibility Study	34
• Software Development Life Cycle	37
• Data Flow Diagram	41
➤ Chapter-IV:	
• Data Base Schema Design	44
• Screen/Snap-Shots of the project	50
➤ Conclusion	66
➤ References	67
